Morning Session, Friday May 20th, 2016

8.00 - 8.30 Breakfast and Welcome

Chairs: Reza Shaker, Milwaukee, USA & **Mark Fox**, Basel & Zürich, Switzerland

Advances in Diagnosis and Management of Swallowing Disorders and Reflux

- 8.30 - 8.50 Esophageal Motor Disorders – Neural or Muscular
Ravinder Mittal, University of California, San Diego, USA
- 8.55 - 9.25 Gastro-Esophageal Reflux – understanding mechanisms, targeting treatment
Sabine Roman, Hospices Civils de Lyon, Lyon, France
- 9.30 - 9.50 Supra-Esophageal Reflux – understanding mechanisms, targeting treatment
Arash Babaei, Medical College of Wisconsin, Milwaukee, USA
- 9.55 - 10.15 Distensibility / Compliance: does it explain symptoms?
John Pandolfino, North Western University, Chicago, USA
- 10.20 - 10.40 Pressure flow dynamics: does it explain symptoms?
Taher Omari, Flinders University, Adelaide, Australia
- 10.45 - 11.05 Mucosal Function: does it explain symptoms?
Daniel Sifrim, Queen Mary's University London, London, UK
- 11.10 - 11.30 Swallowing Function and Dysfunction - what is next?
Peter Kahrilas, North Western University, Chicago, USA

- 11.35 - 12.00 Case discussion, dysphagia: pharyngeal & esophageal
Nathalie Rommel, Leuven, Belgium & Dustin Carlson, Chicago, USA
- 12.00 - 1.30 Lunch HRiM imaging of esophageal function during the meal! – Live**
Mark Fox, St. Claraspital, Basel & University Hospital Zürich, Switzerland

Afternoon Session, Friday May 20th, 2016

Chairs: Samuel Eisenstein, San Diego, USA & Emma Carrington, London, UK

Advances in the Diagnosis and Management of Constipation and Incontinence

- 1.30 - 1.50 Clinical assessment of colonic function – progress
Phil Dinning, Flinders University, Adelaide, Australia
- 1.55 - 2.15 Clinical assessment of anorectal function – progress
Henriette Heinrich, University Hospital Zürich, Switzerland
- 2.20 - 2.40 Constipation – understanding mechanisms to target treatment
Satish Rao, Georgia Regents University, Georgia, USA
- 2.45 - 3.05 Fecal Incontinence – understanding mechanisms to target treatment
Adil Bharucha, Mayo Clinic, Rochester, USA
- 3.10 - 3.30 Biofeedback for anorectal conditions – who for & how it works?
Bill Whitehead, University of North Carolina, Chapel Hill, USA
- 3.35 - 3.55 How to best image anal sphincters & pelvic floor - 3D-US and MRI?
Ravinder Mittal, University of California, San Diego, USA
- 4.00 - 4.30 3D - Ultrasound imaging of anal sphincter
David Kunkel, University of California, San Diego, USA
- 5.00 - 7.00 Reception & Exhibition**
